Many people have helped us in this endeavour, but we want to give special thanks to The Website Group for their comments and help and input in turning the text and photographs into something that can be seen on a mobile device. We would also like to thank the RCA for the funding of the software that links the trail with our Website. We are grateful to all the people who have allowed us to use their text and photographs and if not listed here, please advise us and we will acknowledge your contribution. This project is the work of Rowlands Castle History and Heritage, and it is still very much in the developmental stage. It will benefit hugely from your help. We would be very grateful for any comments, including corrections, further information, and photographs. Please send any comments to trails@rowlandscastleheritagecentre.org.uk

[Rowland's Castle United Reformed Church: A History](#), by Jack Barrett in Association with John Hern 1993.

[Local history booklets](#). Much information from this trail is taken from "A Rowlands Castle Miscellany", compiled by Ralph Cousins and Paul Marshman.

[Model Railway – Rowlands Castle History and Heritage](#) This link shows a model railway of Rowlands Castle at the time just before D Day in 1944, made by Master Modeller Peter Goss and purchased by our village in 2016. It includes an excellent portrayal of the Village Green, very much like it was at that time.
